

LFE

LED FLAT PANEL
WITH DYNAMIC IMAGES

Our LFE line is the best way to enhance the practical benefits of your LED lighting with addition of artistic and stylish visual lighting diffusers. We utilize high-quality acrylic diffusers with your choice of imagery – from blue skies to soothing underwater vignettes. Our new imagery diffusers soften the light and significantly contribute to any establishment's overall style... including homes, restaurants, healthcare facilities, schools, salons, hotels, offices, conference rooms, and more.

Some features of the lighting:

- cETL and ETL listed
- Energy saving flat panel LED with a long-life span
- Instant start with no flickering
- Green and ECO friendly with no mercury
- High CRI with an IP40 driver
- NO UV or IR in the beam

Imagery available:

- Customary blue skies with clouds
- Underwater scenes
- "Day at the park" sky with trees and birds
- Ornate stained glass or marble
- Custom imagery (see next page)

Dimensions on Next Page ►

4x4LP

- Low Profile design, only 1.5" deep
- Imagery is provided as 2'x2' fixtures
- Flexibility allows for panels to be spread over a larger area, or grouped together

4x4B

- Entire 4'x4' imagery is contained into one fixture with no frame seams crossing artwork
- Entire fixture is 7" deep and fully contained.
