RETROL LED RETRO KIT FOR FIXTURES

The **RETROL** is a complete retro-solution to convert an older fixture from fluorescent bulbs to a more efficient and flexible LED setup. These kits will be designed for a quick installation. This is your most cost-efficient upgrade path. With your input we can design a solution for almost any existing fixture.

CONSTRUCTION: One-piece tray and reflector is formed from heavy-gauge CRS with a highly-reflective coating.

ELECTRICAL SYSTEM: Electronic drivers are available for 120/277V applications, 0-10v dimming standard. Long-life LED system rated for >100K life hours (L70 @ 45°C). Complies with federal energy efficiency standards. 90 CRI available as an option.

LISTINGS: Independently tested to IESNA LM-79 and LM-80 specifications. ETL and cETL Listed. Damp and wet location listing applicable on existing housings that are already configured for these levels of moisture resistance. Manufactured in the USA, BAA and BABA compliant.

WARRANTY: 5 - Year Limited Warranty. Complete warranty and terms located at: www.aelnow.com/warranty
