

PROJECT NAME:

**Declaration of Compliance
Build America Act (BAA)**

To Whom It May Concern:

AEL (Advantage Environmental Lighting) hereby warrants that all products and services involved in producing their products are compliant with the Buy American Provision of the American Recovery and Reinvestment Act (Section 1605).

The Buy American Act (BAA) specifies that goods manufactured in the USA are purchased when available. There is a two-tiered test under the BAA. 1) The article must be manufactured in the United States AND 2) The cost of domestic components must exceed 50% of the cost of all the components. However, in accordance with 41 USC 431 this component test of the Buy American Act has been waived for acquisitions of Commercially Available Off the Shelf (COTS) items.

All of the fixtures assembled/manufactured by our company and supplied to you and your customer(s) are "Made in America" as such term is defined in the Buy American provisions contained in Federal Acquisition Regulations (FAR). Specifically, A.E.L. Fixtures are either manufactured or substantially transformed in the United States.
