## NPT8 LOW AND NARROW FLUORESCENT T8 STRIP

The NPT8 is heavy gauge, cold rolled steel fluorescent strip designed for applications where space is limited (typically display cases, signage and cove lighting). The NPT8 features a significantly lower and narrower profile than most conventional 1-light T8 strips. A few features include a wide range of lengths, several knockouts and a close tolerance snap-to-fit housing. This unit is perfect for offices, hospitals, schools and retail installations, and is designed for surface or suspended mounting.

**MOUNTING:** Designed with 1/8" stand off for surface mounting as individual units, or in continuous rows.

**HOUSING:** Heavy-gauge cold rolled steel. Standard with 7/8" knockouts for continuous runs.

**FINISH:** Pre-painted white polyester polymer with minimum 82% reflectivity.

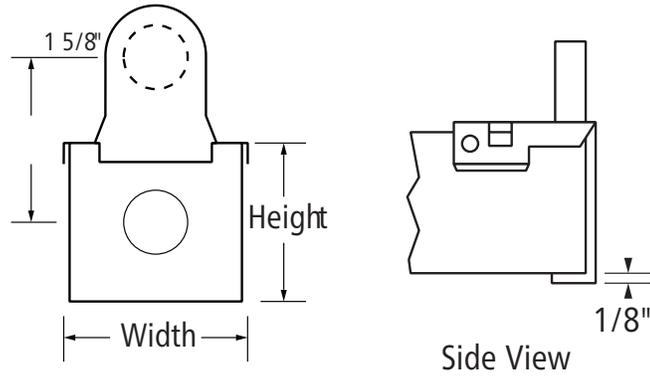

**WARRANTY:** 5 - Year Limited Warranty. Complete warranty and terms located at: [www.aelnow.com/warranty](http://www.aelnow.com/warranty).
